

4-year PhD position in elastomer materials

Improving tyre circularity: a holistic closed-loop recycling approach (TYRECYCLE)

Job Description:

The Elastomers Group (www.elastomeros.ictp.csic.es) of the Institute of Polymer Science and Technology is looking for a predoctoral researcher interested in the area of elastomeric materials.

The selected candidate will actively participate in the TYRECYCLE project addressing the scope and limitations of the different strategies for chemical recycling of tire waste.

Eligibility requirements:

Applicants must have a BSc and MSc in Materials Science, Chemistry or Physics and some general knowledge of elastomer materials. A good command of written and spoken English is a must, and a strong work ethic is also required. If shortlisted, a telephone interview will be held before any further appointments are made. The selected candidate will be expected to conduct research, write papers and submit a PhD thesis.

Applications:

Applicants should submit the following documents via email to Dr. Rodrigo Navarro (rnavarro@ictp.csic.es)

1. Curriculum vitae highlighting his/her suitability for this open position.
2. One recommendation letter.

For further information or enquiries, please contact rnavarro@ictp.csic.es
